

# West Wolds Slow the Flow

It turns out “There is no such thing as a free lunch” - but you can bring your own breakfast and find out about some exciting help for both your business and your environment.

West Wolds Slow the Flow is working with its Technical Partners to create a free morning workshop which is intended to be genuinely useful to the local farming community.

The environment and the business of farming are now more linked than ever before. This workshop will show you a number of ways to improve both.

The workshop will now be held online via Zoom link

**Contact us now to confirm attendance  
and obtain the Zoom link:**

# Online Agriculture Workshop Tue 21 June 2022

## Event Programme

- 08:50 **Introduction / WWSTF** - Bill Blackledge
- 09:00 **New grant opportunities to boost your income and help the environment:** Howard Botting of Natural England will explain newly-available access to green grants, and how they may transition to future funding streams.
- 09:30 **Woodland planting opportunities:** Humber Forest will outline the huge amount of support they can offer for tree and other planting.
- 10:00 **Comfort break**
- 10:10 **Chalkshire/Living Landscapes:** Yorkshire Wildlife Trust discuss their key local themes and how they relate to agriculture.
- 10:40 **Soils & Carbon Capture:** Andrew Walker of Yorkshire Water and Neil Fuller will set out their exciting work with local farmers to improve soil, capture carbon and secure trusted carbon credit payments.
- 11:10 **Questions + discussion**
- 11:40 **Finish**
